Pièges à retenir

- Adjectif + **ness** = nom (ex. aware, awareness)
- **to make** a decision (pas *do*) ; a decision maker = un décisionnaire
- **through** = à travers (3D) ; **across** = à travers (2D) ; **throughout** = tout au long de
- **in order to** = dans le but de
- **relevant** = pertinent ; **complaint** = plainte ; **retailer** = détaillant ; **wide range** = large gamme

2. Verbes du commerce

Exemples au present simple : phrase positive, négative et question.

Rappel : avec *he / she / it* et *the company, the store...*, on utilise **does / doesn't** et le verbe reste à la base (pas de **s**).

Verbe	Positive (+)	Négative (-)	Question (?)
to handle traiter	She handles customer complaints.	She doesn't handle customer complaints.	Does she handle customer complaints?
to deal with s'occuper de	Sales assistants deal with customers every day.	Sales assistants don't deal with suppliers.	Do sales assistants deal with customers?
to promote promouvoir	The company promotes its products on social media.	The company doesn't promote its products on TV.	Does the company promote its products online?
to target cibler	The campaign targets young consumers.	The campaign doesn't target older consumers.	Does the campaign target young consumers?
to boost stimuler	The promotion boosts sales.	The promotion doesn't boost sales.	Does the promotion boost sales?
to retain fidéliser	Loyalty cards help retailers retain customers.	Retailers don't retain customers without loyalty cards.	Do retailers retain their customers?
to stock stocker	The store stocks a wide range of products.	The store doesn't stock luxury products.	Does the store stock a wide range of products?

Verbe	Positive (+)	Négative (-)	Question (?)
to purchase **acheter**	Customers purchase products online.	Customers don't purchase products in this shop.	Do customers purchase products online?
to browse **parcourir**	Customers browse the website before buying.	Customers don't browse the website every day.	Do customers browse the website before buying?
to recommend **recommander**	The salesperson recommends a cheaper product.	The salesperson doesn't recommend this product.	Does the salesperson recommend a cheaper product?

3. Les temps

Temps	Formation	Mots-clés
Present simple **habitudes, faits, généralités**	S + base verbale (+ **s** à la 3e pers.) Nég. : don't / doesn't + BV Q : Do / Does + S + BV *I work / She works*	always, often, usually, sometimes, never, every...
Present progressive **action en cours, situation temporaire**	S + be + V-ing Nég. : S + be not + V-ing Q : Be + S + V-ing *I am working*	now, right now, at the moment, currently
Past simple **action terminée dans le passé**	S + V-ed ou 2e colonne Nég. : didn't + BV Q : Did + S + BV *I worked / I made*	yesterday, last..., ...ago
Present perfect **passé en lien avec le présent**	S + have / has + participe passé Nég. : haven't / hasn't + PP Q : Have / Has + S + PP *I have worked / I have written*	already (déjà), yet, for (durée), since (date)

Exemples en situation

Verbes en **gras**, terminaisons en **rouge**, mot-clé en *italique*.

Present simple (habitudes, faits)

Positive (+)	Négative (-)	Question (?)
Federico *usually* **take**s his scooter to work.	He **doesn't use** the Tube *every day*.	**Does** Federico *often* **take** his scooter to work?
The company **offer**s rental scooters in several cities.	The company **doesn't operate** in small villages.	**Does** the company **provide** helmets?
Many commuters *always* **prefer** electric transport.	E-scooters **don't cause** heavy pollution.	**Do** customers *usually* **like** this service?

Present progressive (action en cours)

Positive (+)	Négative (-)	Question (?)
More people **are buy**ing electric scooters *at the moment*.	The company **isn't expand**ing in Europe *right now*.	**Is** the government **invest**ing in green transport *currently*?
The government **is test**ing new mobility solutions *this year*.	The city **isn't develop**ing new cycling lanes *at the moment*.	**Are** customers **chang**ing their habits *now*?
I **am work**ing *right now*.	I **am not work**ing *at the moment*.	**Are** you **work**ing *right now*?

Past simple (passé terminé)

Positive (+)	Négative (-)	Question (?)
The UK government **launched** a trial *in 2020*.	The trial **wasn't** permanent.	*When* **did** the trial **start**?
Federico **stopped** using public transport *last year*.	Federico **didn't buy** a car *last year*.	**Did** Federico **enjoy** the experience?
Many cities **introduced** rental scooters two years *ago*.	The company **didn't launch** the service *yesterday*.	**Was** the project successful *last year*?

Present perfect (passé lié au présent)

Positive (+)	Négative (-)	Question (?)
Customers **have** *already* **become** more environmentally conscious.	The government **hasn't changed** the law *yet*.	**Has** the city **improved** its infrastructure *since* 2020?
The company **has sold** more than 10,000 scooters.	The city **hasn't improved** its infrastructure.	**Has** the government **legalised** private scooters?
Federico **has saved** time thanks to his scooter.	People **haven't reduced** car use.	**Have** customers **tried** rental scooters?
Federico **has used** his scooter *for* three years.	He **hasn't used** the Tube *since* 2020.	**Has** he **used** the Tube *for* a long time?

Attention
- Présent simple : avec *does / doesn't*, le verbe perd son **s** (He doesn't use).
- *Since 2020* demande le present perfect : He **hasn't used** the Tube since 2020.
- Pluriel : Customers **have** become... ; E-scooters **don't** cause pollution.

4. Les verbes

Irréguliers vus dans les exercices

Exemples au past simple : phrase positive, négative et question.

Rappel : après **didn't** et **did**, le verbe revient à la **base verbale** (Did he buy, pas *Did he bought*). Exception : **be** ne prend pas did (*wasn't / weren't*, *Was / Were + S*).

Verbe (base, PS, PP)	Positive (+)	Négative (-)	Question (?)
be **was / were, been**	The project was very successful.	The project wasn't very successful.	Was the project successful?
become **became, become**	Customers became more environmentally conscious.	Customers didn't become more conscious.	Did customers become more conscious?
buy **bought, bought**	Federico bought a new scooter.	Federico didn't buy a car.	Did Federico buy a new scooter?
make **made, made**	The company made a big profit.	The company didn't make a profit.	Did the company make a profit?
sell **sold, sold**	The company sold 10,000 scooters.	The company didn't sell many scooters.	Did the company sell 10,000 scooters?
take **took, taken**	Federico took the Tube every day.	Federico didn't take the Tube yesterday.	Did Federico take the Tube every day?
write **wrote, written**	She wrote a report last week.	She didn't write a report last week.	Did she write a report last week?

Exemples au present perfect : phrase positive, négative et question.

Rappel : **have / has + participe passé**. Dans la négative et la question, le verbe reste au participe passé (*Has he bought*, pas *Has he buy*).

Verbe (participe passé)	Positive (+)	Négative (-)	Question (?)
be **been**	The project has been very successful.	The project hasn't been very successful.	Has the project been successful?
become **become**	Customers have already become more environmentally conscious.	Customers haven't become more conscious yet.	Have customers become more conscious?
buy **bought**	Federico has bought a new scooter.	Federico hasn't bought a car yet.	Has Federico bought a new scooter?
make **made**	The company has made a big profit.	The company hasn't made a profit this year.	Has the company made a profit?
sell **sold**	The company has sold more than 10,000 scooters.	The company hasn't sold many scooters yet.	Has the company sold 10,000 scooters?
take **taken**	Federico has taken his scooter to work **for** three years.	Federico hasn't taken the Tube **since** 2020.	Has Federico taken the Tube this week?
write **written**	She has written a report.	She hasn't written the report yet.	Has she written the report yet?

Réguliers (attention à l'orthographe)

- stop, **stopped** (consonne doublée)
- try, **tried** (y devient ied)
- study, **studies** (3e pers.) / **studied** (passé)
- Autres : use, prefer, offer, test, develop, launch, introduce, change, save, improve, reduce, legalise, adopt, invest, consider, continue, remain, create, provide, operate, cause, expand, enjoy, start.

Le verbe LOOK

Expression	Sens
look at	regarder
look for	chercher
look like	ressembler à
look	avoir l'air
look up to	admirer
look down on	mépriser
look forward to	avoir hâte de

5. Le passif

Formation : BE + participe passé (V-ed ou 3e colonne). Le temps se met sur **BE**.

Temps	Actif	Passif
Présent simple	sells	**is sold**
Présent continu	is selling	**is being sold**
Past simple	sold	**was sold**
Present perfect	has sold	**has been sold**
Futur	will sell	**will be sold**
Modal	can sell	**can be sold**

Méthode : le COD de l'actif devient le sujet du passif, puis on garde le temps avec BE + PP.
The company sells products online devient *Products are sold online.*

BY : seulement quand c'est **pertinent** (si on veut préciser qui fait l'action).

Quand utiliser le passif ?

Situation	Exemple
1. On ne sait pas qui a fait l'action	My order was delivered yesterday.
2. Peu importe qui l'a fait	The products are stored in the warehouse (entrepôt).
3. L'action est évidente	Customers are asked to show their receipts.
4. Langage pro / formel : rapports, instructions, politiques (policies), articles, communication pro, descriptions produits	We offer free delivery, donc *Free delivery is offered.*

Reconnaître actif / passif

Phrase	Voix
The company launched a new product.	actif
A new product was launched by the company.	passif
Customers buy these products online.	actif
These products are sold online.	passif
The manager has approved the campaign.	actif
The campaign has been approved.	passif

6. Rappel : this / that / these / those

	Singulier	Pluriel
Proche	this	these
Éloigné	that	those
